principles for evaluating building materials in sustainable construction healthy and sustainable materials for the built environment provides a comprehensive overview of the issues associated with the selection of materials for sustainable construction proposing a holistic and integrated approach the book evaluates the issues involved in choosing materials from an ecosystem services perspective from the design stage to the impact of materials on the health of building users the three main sections of the book discuss building materials in relation to ecosystem services the implications of materials choice at the design stage and the impact of

materials on building users and their health the final section focuses on specific case studies that illustrate the richness of solutions that existed before the rise of contemporary construction and that are consistent with a sustainable approach to creating built environments these are followed by modern examples which apply some if not all of the principles discussed in the first three sections of the book provides a holistic and integrated approach to the issues associated with the selection of materials for sustainable construction provides a thorough understanding of ecosystem services based on ecology research for built environment design provides an original review of the impact of materials on human health provides case studies to illustrate the points above

this workshop covered new developments in monitoring control and surveillance implementation of the port state measures agreement instruments to fight illegal unreported and unregulated iuu fishing and much more

this landmark publication provides a comprehensive and authoritative account of new zealand s involvement in the vietnam war and will remain the standard reference work on the subject for decades its publication completes the programme of official war histories that began in 1945 ian mcgibbon s primary focus is what new zealand did in south vietnam he traces in detail the operations carried out by new zealand forces and seeks to illuminate the experience of new zealand soldiers fighting in a guerrilla war the command structure logistic support and operational context of fighting within a primarily australian framework are all covered he addresses controversial aspects such as friendly fire incidents atrocity allegations and veterans grievances including over agent orange maori participation in v force was substantial and its impact is assessed although the book is inevitably weighted towards the military the efforts of civilians in south vietnam are also covered in depth the surgical team operated from 1963

until their evacuation from Qui Nhon just days before North Vietnamese columns entered the city not forgotten are the efforts of courageous civilians like Sister Mary Laurence and of Red Cross volunteers to alleviate misery among refugees the book also describes the dramatic end of New Zealand's involvement in South Vietnam with the surgical team and the New Zealand embassy evacuated by RNZAF Bristol freighters just before the Communist victory finally McGibbon surveys the war's troubled aftermath culminating in the Prime Minister's apology to veterans in 2008
