in this timely book new zealand s best known commentator on population trends distinguished professor paul spoonley shows how as new zealand moves into the 2020s the demographic dividends of the last 70 years are turning into deficits our population

patterns have been disrupted more boomers fewer children an ever bigger auckland and declining regions are the new normal we will need new economic models new ways of living spoonley says it is not a crisis even if at times it feels like it but rather something that needs to be understood and responded to but i fear that policy makers and politicians are not up to the challenge that would be a crisis

spanning nearly two centuries from first contact through to settlement and apology this major work focuses on the human impact of the war in the waikato its origins and aftermath

the new zealand wars were a series of conflicts that profoundly shaped the course and direction of our nation s history fought between the crown and various groups of māori between 1845 and 1872 the wars touched many aspects of life in nineteenth century new zealand even in those regions spared actual fighting physical remnants or reminders from these conflicts and their aftermath can be found all over the country whether in central auckland wellington dunedin or in more rural locations such as te p rere or te awamutu the wars are an integral part of the new zealand story but we have not always cared to remember or acknowledge them today however interest in the wars is resurgent public figures are calling for the wars to be taught in all schools and a national day of commemoration was recently established following on from the best selling the great war for new zealand vincent o malley s new book provides a highly accessible introduction to the causes events and consequences of the new zealand wars the text is supported by extensive full colour illustrations as well as timelines graphs and summary tables

the universal declaration of human rights adopted while the world remained deeply shocked by the atrocities committed during the second world war was an inspirational creation it is hard to conceive of this document being adopted today like most other nations new zealand has succumbed to a kind of world weary acceptance that full enjoyment of universal human rights remains a distant dream preface dame silvia cartwright pcnzm dbc qso new zealand is proud of its human rights record with good

reason it was the first country in the world to give women the vote and it played a prominent part in the establishment of the united nations and the universal declaration of human rights new zealand recently took a leading role in the creation of the world s newest human rights treaty the convention on the rights of persons with disabilities but just how good are things in practice are our governments living up to the promises they make when they ratify human rights treaties human rights in new zealand is a comprehensive survey of the seven major international human rights treaties which new zealand has signed and ratified as well as the universal periodic review based on four years of research undertaken with the support of the new zealand law foundation this book concludes that significant faultlines are emerging in the human rights landscape it sets out an agenda for change with recommendations for practical action

what would a history of new zealand look like that rejected thomas carlyle s definition of history as the biography of great men and focused instead on the experiences of women one that shifted the angle of vision and examined the stages of this country s development from the points of view of wives daughters mothers grandmothers sisters and aunts that considered their lives as distinct from though often unwillingly influenced by those of history s great men in her ground breaking history of new zealand women barbara brookes provides just such a history this is more than an account of women in new zealand from those who arrived on the first waka to the grammy and man booker prize winning young women of the current decade it is a comprehensive history of new zealand seen through a female lens brookes argues that while european men erected the political scaffolding to create a small nation women created the infrastructure necessary for colonial society to succeed concepts of home marriage and family brought by settler women and integral to the developing state transformed the lives of māori women the small scale of new zealand society facilitated rapid change so that by the twenty first century women are no longer defined by family contexts in her long awaited book barbara brookes traces the factors that drove that change her lively narrative draws on a wide variety of sources to map the importance in women s lives not just of legal and economic

changes but of smaller joys such as the arrival of a piano from England or the freedom of riding a bicycle

This work follows the scope of the Sale of Goods legislation and provides in depth commentary and analysis of non consumer sales between New Zealand businesses. It starts with an introduction, history and discussion of the scope of the legislation before moving into the mechanics of formation of the contract and passing of property and risk. There are chapters specific to buyer's duties, seller's duties, buyer's remedies and seller's remedies. Then the final chapter is an extensive discussion of international sale of goods involving New Zealand businesses. As an added feature there are comparative tables mapping sections of the repealed legislation to the new act and vice versa. The value of the goods bought and sold each year in New Zealand that are potentially subject to the sale of goods legislation is enormous.
